

SmallRig

Side Handle (for Gimbals)

Operating Instruction

SmallRig Side Handle for Gimbals 2786C is designed to reduce arm fatigue and provide accessory mounts when shooting with your gimbals. This ergonomically-designed handle enables you to hold your gimbals with two hands to reduce the weight stress on one hand. The foldable design makes the handle easy to store and carry. It is designed with an anti-twist plate on the side for stably attaching the stabilizer and camera in the front, rear, and left positions. It connects to the bottom of the gimbal via 1/4"-20 or 3/8"-16 screws, which can be mounted on the left or right side of the stabilizer. The cross arm of the handle is designed with two 1/4"-20 threaded holes for attaching the Mini V-Lock Assembly Kit MD2801B, the 1/4"-20 threaded holes, ARRI 3/8" -16 threaded holes & cold shoe mounts, for attaching the Swivel and Tilt Adjustable Monitor Mount 2903B, Magic Arm with Dual Ball Heads (1/4"-20 Screws) 3873, microphone, wireless transmitter, etc. A flat-head screwdriver is stored at the bottom to secure the mounting screw.

Safety Guidelines

1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.

Product Details

Easy to Use

Foldable design for easy storage, compatible with DJI, Zhiyun, and Moza handheld gimbals, and other cameras or devices with 1/4"-20 or 3/8"-16 threaded hole on the bottom;

Side anti-twist design for stable installation without deformation ;

The top of the handle is equipped with 1/4"-20 threaded holes, ARRI 3/8" -16 threaded holes & cold shoe mounts, for attaching the monitor, microphone, wireless transmitter, and action cameras, etc.

Ensures the Anti-deflection
for DJI RS 2 / RSC 2 / RS 3 / RS 3 Pro

Can be configured for the right or left hand, easier control than handheld mode;

Compatible with Zhiyun Crane V2
/ Crane 2S / Crane 2 and DJI Ronin-S /
Ronin SC / RSC 2 / RS 2 / RS 3 / RS 3 Pro / RS 3 Mini

Two 1/4"-20 threaded holes on the bottom for attaching the Mini V-Lock Assembly Kit MD2801B.

Specifications

Product Dimensions: 170.8 x 120.0 x 55.0mm

Package Dimensions: 176.0 x 53.0 x 55.0mm

Product Weight: 296.0 ± 5.0 g

Package Weight: 336.0 ± 5.0 g

Material(s): Aluminum Alloy, Stainless Steel, Brass, Silicone

Compatibility:

DJI Ronin-S / Ronin-SC

DJI RS 2 / RSC 2

DJI RS 3 / RS 3 Pro / RS 3 Mini

DJI RS 4 / RS 4 Pro

DJI RS 4 Mini

Zhiyun Crane 2S / Crane 2 / Crane V2 Series

Moza Air 2 / Moza AirCross 2

Any camera or handheld gimbal with 1/4"-20 or 3/8"-16 threaded hole on the bottom.
