

SmallRig

Type-C to Type-C Audio Signal Adaptor

Operating Instruction

SmallRig Type-C to Type-C Audio Signal Adaptor 4406 is a video cage accessory for the iPhone 15 Pro series. The adapter transfers the Type-C audio signal interface of the mobile phone to the side of the mobile phone, so that the mobile phone is connected to the side handle to do landscape shooting without interfering with the use of microphone.

Safety Guidelines

1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.
