

SmallRig

Mini Side Handle (1/4"-20 Screws)

Operating Instruction

The SmallRig Mini Side Handle (1/4"-20 Screws) 2916 is designed for mirrorless, digital camera, and other small cameras. Two 1/4"-20 screws are fixed to the side of the Cage. The handle supports additional mounting options - The flash and microphone can be mounted through the cold shoe 1241, and the wrist strap, such as 2456, can be mounted through the eyelet to prevent the camera from accidentally falling off. Highly adjustable to fit different cage height and support the quick switch from left-handed to right-handed through the built-in wrench. Compatible with SmallRig Cages 2251, 2808, etc. Made of aluminum alloy and plastic (PC+ABS) with ergonomic design, the portable handle provides filmmakers with a smooth and comfortable shooting experience.

Safety Guidelines

1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.
