## Wireless Microphone Support with Cold Shoe Mount

Operating Instruction

SmallRig Wireless Microphone Support with Cold Shoe Mount 4822, meticulously crafted from aerospace-grade aluminum alloy, is tailored to enhance wireless lavalier microphone receivers. It effectively addresses the challenge of loose locking between the receiver and camera cage. With two versatile installation options, it can be securely fixed into the cold shoe mount or stands with a 1/4"-20 threaded screw, such as 4899, 4900, or 4194.

The cold shoe mount features a built-in spring-loaded clip, ensuring compatibility with a wide range of wireless microphones, including DJI Mic 2 (refer Compatibility part below). Its unidirectional mounting design prevents accidental slippage, while the detachable bottom cold shoe offers mounting flexibility. Additionally, the bottom of the cold shoe mount features a 1/4"-20 positioning hole, allowing seamless attachment to various stands. This microphone support is precision CNC machined to ensure enduring strength and durability.

## Safety Guidelines

### 1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

### 2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

### 3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

### 4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

### 5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.

## In the Box

Support with Cold Shoe Mount      × 1

Allen Wrench      × 1

Guarantee Card      × 1

# Wider Compatibility

Compatible with multiple brands of microphone receivers

For DJI

For Saramonic

For MOMA

For RODE

For Godox

# Unidirectional Mounting Design

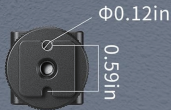

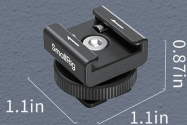

The cold shoe mount adopts unidirectional mounting design to prevent accidental slippage

# Lightweight and Compact

The weight only 24g / 0.8oz, it is compact and portable enough for filming on the go

# Fit for DJI Mic Receiver

It resolves loose attachment problems between wireless microphone receivers and camera hot shoe mounts or video cages

**Without Cold Shoe Adapter**  
(Loose and dangerous)

vs

**With SmallRig cold shoe adapter**  
(Tight and safe)

# In the Box

Support with Cold Shoe Mount × 1  
Allen Wrench × 1

ID: 4822

## Specifications

Product Dimensions: 28.0 × 28.0 × 22.0mm / 1.1 × 1.1 × 0.9in

Package Dimensions: 62.0 × 52.5 × 41.0mm / 2.4 × 2.1 × 1.6in

Product Weight: 24.0 ± 5.0g / 0.8 ± 0.2oz

Package Weight: 39.0 ± 5.0g / 1.4 ± 0.2oz

Material(s): Aluminum Alloy
