## L-Bracket for Nikon Z 5 Z 6 Z 7 Z 6 II Z 7 II

Operating Instruction

SmallRig L Bracket for Nikon Z5/Z6/Z7/Z6 II/Z7 II Camera 2947 is modular designed with anti-twist flanges to keep the camera from twisting and provide a comfortable grip. Both the base plate and side plate are Arca-type compatible dovetails enable the camera to mount in a vertical or horizontal position. It secures to the bottom of the camera with a 1/4 screw and an anti-twist locating pin to prevent twisting. Each axis features a sensor centering line to align the camera on a tripod head. The side plate can be extended to left if more room is needed for tethering or cable release. Additionally, the L plate features multiple 1/4"-20 threaded holes on the side and bottom for accessory attachment such as Cold Shoe BUC2736 and Cable Clamp 2259. A flat head screwdriver is included to secure the camera screw and stores on the bottom of the L bracket.

## Safety Guidelines

### 1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

### 2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

### 3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

### 4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

### 5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.
